Reasons for Allowance

- **a.** The following is the Examiner's statement of reasons for allowance.
- 4. Regarding the independent claims, the primary reference Ball discloses as previously discussed.
- 5. Ball however, does not disclose wherein a content which has already begun to be played, ceases to be played based on a licensing determination made after playing has begun. Moreover, this feature is not likely to be found in a reasonable number of references. Yet even if the missing claimed elements were found in a reasonable number of references, a person of ordinary skill in the art at the time the invention was made would not have been motivated to include these missing elements in an embodiment of Ball since normally a person would not want to download a digital work which may turn out not to be licensed.

Art Unit: 3685

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to CRISTINA OWEN SHERR whose telephone number is (571)272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.
